

Creating a bold new future.

Join us to explore a new global vision
Built on Sustainability, Spiritual Fulfillment
and Social Justice.

Featuring video insights from inspiring philosopher scientists, community leaders and more.

Attend the **Awakening the Dreamer Changing the Dream Symposium**. And come together with conscious, aware people who care about what's happening in the world, our community and with our families. We'll look at our biggest challenges and opportunities today:

- **The state of our industrial world** and the thinking that got us where we are today
- **A new dream—new ideas about what really matters**—leading to deep connection and surprising solutions
- **How you can be part of what's emerging**—because you already are!
